SHANAVAZ

Associate Technical Lead

Bangalore, India | Phone: 8792444105 | Email: abbashcne@gmail.com

PROFESSIONAL SUMMARY

Cloud and IT infrastructure professional with 11 years of experience in server administration, cloud engineering, and on-premises infrastructure management. Current role as Cloud Engineer at Rapyder Cloud Solutions, with expertise in AWS Cloud, Oracle Cloud Infrastructure (OCI), Linux and Windows Server administration, and Dell/HP server and storage deployment. AWS Certified SysOps Administrator and Solutions Architect, Microsoft Certified Systems Administrator (MCSA), and Jump Cloud Certified. Proven track record in cloud automation, infrastructure as code, security and identity management, and team leadership.

CERTIFICATIONS

- AWS Certified SysOps Administrator – Associate
- AWS Certified Solutions Architect – Associate
- AWS Certified Security - Specialty
- Microsoft Certified Systems Administrator (MCSA) – Windows Server 2016
- Jump Cloud Certified – Core

TECHNICAL SKILLS

- AWS Compute: EC2, Lambda, Elastic Beanstalk, ECS, AppStream
- AWS Storage: S3, EBS, Glacier
- AWS Database: RDS
- AWS Networking: VPC, AWS Direct Connect, Route 53, CloudFront, Elastic Load Balancer (ELB)
- AWS Monitoring and Logging: CloudWatch CloudTrail
- AWS Security and Identity Management: IAM, KMS, AWS Shield, AWS WAF, Security Groups, NACLs
- Monitoring Tools: Site24x7, Status Cake
- Tools: Zoho, ServiceNow, PuTTY, WinSCP
- Jump Cloud: Cloud-based directory service for centralized user and device management, endpoint security and MDM (Windows, macOS, Linux), policy enforcement, patch management, remote device management, SSO (SAML and OIDC), organization-wide Multi-Factor Authentication
- Infrastructure as Code: Terraform
- Operating Systems: Linux, Windows Server (2012 R2, 2016, 2019)
- On-Premises Infrastructure: Failover clustering, Hyper-V, Active Directory, DHCP, GPO, DNS, server architecture security, system backups, enterprise storage and backup solutions, compute nodes (workstations, desktops, laptops, thin clients, Android devices), networking (wired and Wi-Fi), surveillance systems, printing solutions
- Productivity and Business Software: Microsoft Office 365, Tally, Payroll applications

LEADERSHIP SKILLS

- Communicating management goals and accountability, aligning team members to their roles
- Delegating work based on individual strengths and optimal use of talent
- Motivating and inspiring team members to perform at their best
- Keeping team members on task and on schedule
- Stress management, honesty, integrity, and approachability with management and co-workers

PROFESSIONAL EXPERIENCE

Associate Technical Lead— Rapyder Cloud Solutions *November 2022 – Present*

- Provision, configure, and manage virtual servers (EC2 instances) to meet application requirements

- Install and maintain software, security updates, and patches on EC2 instances
- Monitor instance health and performance metrics using CloudWatch
- Configure security groups, key pairs, and IAM roles for EC2
- Automate administrative tasks such as patch management using AWS Run Command
- Create, configure, and manage S3 buckets to store and retrieve data objects
- Set up lifecycle policies to manage and automate data archival
- Configure ALB routing rules, listener policies, and health checks
- Create and manage auto-scaling configurations to automatically adjust instance capacity
- Create and manage IAM policies, roles, and permissions to control access to AWS resources
- Set up CloudWatch alarms to notify on threshold breaches or anomalies
- Deploy and run serverless functions (AWS Lambda) in response to service and custom events
- Create and manage ECS clusters to group container instances

IT Support Team Lead — Cerebra Integrated Technologies Limited *July 2013 – October 2022*

- Provided support including troubleshooting, administration, and service restoration for Windows Server 2003, 2008, and 2012
- Troubleshot and administered Active Directory (AD), DNS, and Group Policy Objects (GPO)
- Configured and troubleshot network, router, and firewall systems
- Managed and monitored the company AWS account, including Payroll, Web, Tally, and application servers hosted on AWS

KEY PROJECTS

- Biryani By Kilo: Implemented AWS solutions using EC2, S3, EBS, Route 53, RDS, and Aurora across multiple AWS accounts; designed, deployed, and operated highly available, scalable, and fault-tolerant systems
- Navi (Financial Company) Migration: Led application migration from on premises to AWS Cloud using AWS Migration Hub, including landing zone creation, cost estimation, discovery and assessment, and configuration of backup, monitoring, patching, ALB, ASG, high availability, and GuardDuty
- Karnataka State Police (KSP): Configured Huawei Ocean Storge 5000 V5 with 100TB storage, including LUNs, RAID, and fibre connections to Lenovo Brocade SAN switch and Huawei Blade Enclosure E9000; installed and configured Windows Server 2019 on Huawei CH121 V5 blade with RAID1 and user account setup
- Karnataka State Remote Sensing Application Centre (Government of Karnataka Data Centre): Installed and configured Windows Server 2012 R2 Standard and RAID-5 on Fujitsu Primergy servers; set up domain, Hyper-V, failover clustering, group policy, and user accounts; mounted server racks and configured SAN storage and fibre connectivity
- Satish Dhawan Space Centre (SHAR), Srihari Kota: Led installation and configuration of 250 Dell Wyse thin clients with a VDI solution
- Indian Air Force, Ministry of Defence: Installed and configured Windows Server 2012 R2 Standard on Fujitsu Primergy RX2530 M2, including RAID-1 configuration and domain migration

EDUCATION

- Master of Commerce (M. Com) — Dr. Bhimrao Ambedkar University, Agra (RBS College, Agra), 2008
- Bachelor of Commerce (B. Com) — RBS College, Agra, 2006
- 12th Standard — St. John's Inter College, U.P. Board, 2002
- IT Certificate Course (A+, N+, CCNA, Server 2012 R2, Linux) — HCL, 12-month program, 2008
